

What do I look like?
Quechan man

I am an American Indian man, with dark skin and long, black hair. I have dark eyes and large dark eyebrows. My nose is of average size. My lips are plump, and my top lip is shaped like the top of a heart. I have a thin dark mustache that fills in the space between my nose and upper lip, and grows down to the side of my mouth. My face is square in shape, and I have high cheekbones.

My tattoo is light in color and is on my cheeks. They are dots going from each end of my eyes down to my jaw line. I have two dark tattoos on my forehead. They are in the middle going all-the-way across my head.

As for hair I have long dark hair with side swept bangs. I also have a little mustache that goes from one half of my mouth to the other.
